ABOUT ME

In a recent past life, I maintained a healthy traditional career managing both small and large teams and multi-million dollar projects that have contributed greatly to my ability to direct film projects. My past employment contributes to my ability to plan in pre-production, have a keen understanding of budget management and ability to work within production needs, as well as manage a team on set and in post-production. Below is my education and employment history that contributes to who I am today.
